

What is QR Code student videos.

Many times, as visitors walk thru the gallery or we hear “How did they do that”. Since we have so many talented students it would be nice to share your student’s abilities and art class projects. We have seen other digital projects where progress and techniques are captured. This option would allow us to bring the art in your district into the gallery.

How to complete the video.

1. Verify your student’s picture can be published
2. Make a short video of your student completing their project , or send some photos and we can put them together into a short video.
3. Send an email to technology@moesc.net and we will send you a link to the Shared Google Drive named ART2020
4. Upload your file(s) with Student First Name, Last Initial, and District name if multiple then just use a number sequence at the end.

Mid-Ohio ESC staff will take the video assign a QR code and place it near the art project.

Many people can view the video via their phone, if not we will have some chrome books in the gallery.

If you have any questions or need assistance just email technology@moesc.net and we will get back to you.
